- PROFILE -

ABOUT US

Established in 2024 and officially registered in Dubai, Tamkeen Trading L.L.C. delivers high-quality trading solutions across a wide range of industries.

Vision:

To become a trusted leader in trading solutions across the GCC and beyond, fostering sustainable growth through innovation, integrity, and long-term partnerships.

Mission:

Our mission is to deliver premium trading solutions that connect global opportunities with regional expertise. We are dedicated to excellence, reliability, and building enduring partnerships that create lasting value for our clients, communities, and stakeholders.

Core Values:

- Integrity, we conduct business with honesty, transparency, and responsibility.
- Innovation, we embrace new ideas and smart solutions to stay ahead in dynamic markets.
- Customer Focus, we put our clients at the center of everything we do.
- Quality Excellence, we are committed to delivering superior products and services.
- Sustainability, we pursue growth that benefits both business and community.
- Partnership, we cultivate relationships built on trust, respect, and mutual success.

OUR SERVICE

At **Tamkeen Trading L.L.C.**, we deliver tailored trading solutions that connect global opportunities with the demands of regional industries. Our focus is on providing high-quality products, reliable supply, and long-term value for our partners.

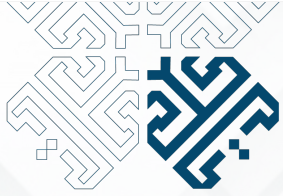

Metal Industries Supply specialized sourcing and distribution of industrial equipment and machinery, including advanced solutions from **Russia**.

Building Materials & Construction Supply reliable provision of essential construction and finishing materials for diverse projects across the GCC from **Turkey**.

Steel & Fabric Imports from China sourcing and supplying premium structural steel and high-quality industrial fabrics from leading Chinese manufacturers, ensuring competitive pricing and consistent availability.

Surface Treatment & Restoration advanced repair solutions from **Germany** for metals, stone, glass, and interiors, offering sustainable alternatives to replacement with technology made in Germany.
