

BEMER DOG LINE

Only the best for your best friend

They give you everything. Give them eight minutes, twice a day.

The BEMER Dog Line brings BEMER therapy to the place your dog already loves most — their bed. Here's what those eight minutes can give back:

Harmonious and balanced behavior*

Designed to support microcirculation, so the dog you know can settle more easily, soften at the edges and feel like themselves again.

Focus, motivation and play*

Ears up, toy in mouth. Dogs can become noticeably keener, more attentive and more willing to join in.

Balance, coordination and mobility*

Steadier on their feet, surer on the stairs. Used daily, it can help your dog carry themselves with quiet confidence.

Enthusiasm for exercise*

That pull toward the door can come back — supported microcirculation helps rekindle their own appetite for moving.

CHOOSE YOUR SET

SET	DIMENSIONS	USD*	CAD*
