The Founder

My journey into branding began long before I gave it a name. I worked in design, refined my craft, and slowly realized that the strongest brands are not built on trends, but on clarity and connection.

Andrija Designs was born from that belief. What started as freelance work grew into something bigger, a design studio dedicated to crafting brand identities that not only look good but truly mean something.

About
Andrija Designs

Look, we're not a buffet—we don't do a little bit of everything just to keep everyone fed. We're chefs. **Specialists.**

We're Not Generalists

Why keep our capabilities intentionally small? Because spreading ourselves thin sucks. It dilutes impact, waters down creativity, and sacrifices depth for breadth. We believe branding demands relentless focus and precision. Less fluff. More punch.

Specializing lets us dig deeper, think sharper, and execute cleaner. It empowers us to amplify results where they matter most:

Visual Identities with heart, clarity, and charisma.

Brand Identity

Brand identity is at the core of what we do. It's more than just a logo—it's the entire system that shapes how your brand looks, feels, and communicates.

We guide you through a strategic process, from discovery to brand rollout, making sure every piece works together seamlessly. Curious how it all comes together?

Let's walk you through the process.

Our Identity Process

Good branding isn't magic—it's method.

Your journey begins with a meaningful conversation—your aspirations, our insights, all coming together.

Step — 01

Introductions

This isn't small talk; it's the spark that ignites trust. We listen closely, diving deep to grasp your goals, vision, and the heart behind your brand. It's where we set the foundation, align our minds, and kick off a collaboration rooted firmly in clarity and connection.

 We'll ask questions like:

- 01. What sparked this branding journey for you?
- 02. How do you define success for this project?
- 03. Who needs to fall in love with your brand?

With a solid grasp of your vision, we move to outline the roadmap and budget for our journey together.

Step — 02

Proposal

This proposal isn't just paperwork—it's your first look at what's possible. You'll see clear timelines, transparent budgets, and precisely defined deliverables. More importantly, it's designed to flex, giving you room to refine the scope and ensure every detail aligns seamlessly with your goals.

 Proposals include:

- 01. Detailed project roadmap
- 02. Clear cost structure
- 03. Scope tailored to your objectives

Great brands thrive on clear commitments, and this is where we make our partnership official.

Step — 03

Contract & Deposit

Talk is great, but ink and a deposit make it real. You'll get a detailed SOW (Scope of Work) that lays out exactly what to expect—no surprises, no confusion. And your 50% deposit isn't just about money; it's proof we're both invested in making something incredible happen.

i What you can expect:

- 01. A detailed SOW, clarifying every deliverable
- 02. 50% deposit, locking in our undivided attention
- 03. Clear terms keep everyone aligned and focused

Great ideas begin when we dig deeper, and this is our chance to fully understand your brand.

Step — 04

Discovery

Discovery is where clarity happens. It's an intensive 1–2 hour session designed to unpack everything about your brand: your competitors, your ambitions, and your fears. We set up a dedicated Notion portal to keep the dialogue flowing, ensuring nothing slips through the cracks as we align our thinking.

 What you can expect:

- 01. Strategy session to map out your brand
- 02. Dedicated Notion portal for easy collaboration
- 03. Deep dive into your market, & ambitions

We translate strategic insights into visual inspiration, capturing the essence of your future identity.

Step — 05

Visual Moodboards

Moodboards aren't decoration; they're a first look at your brand's potential identity. We craft 3–5 unique moodboards that translate abstract ideas into visual clarity, making sure our creative concepts perfectly align with your vision. It's inspiration you can actually see and feel.

 What this includes:

- 01. 3–5 curated moodboard concepts
- 02. Inspiration for logos and icons
- 03. Brand colors, typography, and identity examples

Step — 06

Identity Design

With moodboards as our guide, your brand identity comes alive through thoughtful, intentional design.

Guided by our moodboards, this phase breathes life into your identity. We'll meticulously craft and refine every visual detail, designing logo concepts, choosing meaningful typography, and selecting impactful colors. Don't be surprised if we check back in for extra insights—precision is everything!

i What this includes:

- 01. 3–5 refined logo & identity concepts
- 02. Detailed brand colors & typography examples
- 03. Real-world contextual mockups and images

We assemble your brand's core elements into a cohesive, actionable kit, designed specifically for you.

Step — 07

Brand Kit

We take all the carefully crafted elements—logo, colors, type—and bundle them neatly into a fully custom brand kit. It's your brand's visual bible, giving you confidence and consistency. You'll also pick two additional deliverables, like sleek stationery or social assets, to supercharge your rollout.

 What this includes:

- 01. Comprehensive brand guidelines
- 02. Two additional deliverables of your choice
- 03. Fully organized files ready for use

The final touches matter most, and perfection lives in thoughtful refinements.

Step — 08

Finalization & Revisions

We wrap things up with careful precision, refining every element based on your feedback. This phase is collaborative and thorough, designed to make sure your brand identity is razor-sharp, fully polished, and launch-ready. Nothing leaves our studio until you're completely stoked.

 Keep in mind:

- 01. This is the last chance for refinements
- 02. Think smart, the best choice may challenge
- 03. Gather input from all decision-makers

Launching your brand is about clarity, consistency, and making a meaningful splash.

Step — 09

Brand Rollout

We ensure your brand hits the ground running, guiding you through a strategic rollout tailored specifically for impact. From digital to physical touchpoints, your identity will feel unified, intentional, and confident.

 Final deliverables:

- 01. Logo in all the file types you'll need
- 02. Any templates we've created
- 03. PDF style guide
- 04. All final brand kit deliverables
