## **Exhibitions, publications**

In 2023, had a personal photography exhibition in Poland. Photo project "Are you okay there?" was dedicated to Russia's war against Ukraine and called to remind the European society what my country is struggling with. The exhibition gained wide publicity, several publications were devoted to it in Polish mass media, as well as an interview with me on the radio. Later this exhibition was held on another location in Poland and also on 2 locations in Portugal.

In 2024, took part in the art project "Fragility". At the exhibition were presented 5 of my artworks. The exhibition took place at three locations in Kyiv: at the Museum of the Revolution of Honor, at the KPI Library and at the Cultural Arts Center of the Kyiv-Mohylanska National University Academy. The exhibition was charitable. Together with the organizers and other artists we managed to collect UAH 200,000 for an ambulance Austrian for Hospitallers.
