

New school year — with new opportunities! 🖥️📚

Congratulations, friends! Another batch of modern IT equipment has successfully reached a Ukrainian school. This time, laptops and computers went to the Semenivska Gymnasium in the Zhytomyr region.

We sincerely thank our incredible partners — the charitable organization Menschlichkeit Spenden e.V. from Nuremberg and its leader Rina Sobolevski, who delivered the equipment to the school.

A special thank you to German benefactors — caring people and organizations who donated their own gadgets to support Ukrainian schoolchildren. Thanks to you, children have the opportunity to study despite all difficulties. We congratulate all Ukrainian students on the beginning of the new school year! Study, dream and win! 💖
