## LIVATY Lume

A cosmetic wellness LED device designed to support your daily skincare routine – the Lume was specifically developed to enhance the cosmetic effects of LIVATY serums and elevate your personal care experience.

### 3 Light Programs – 4 Wavelengths – 1 Goal

Skin that lets your inner glow shine through: Whether your skin needs regeneration, soothing, or a boost of vitality – LIVATY puts it in the best light.

#### BLUE

Blue light is used to treat blemish-prone skin and helps create a calm, balanced complexion.

#### AMBER

Amber light is especially gentle on the skin and helps create a more even, balanced complexion.

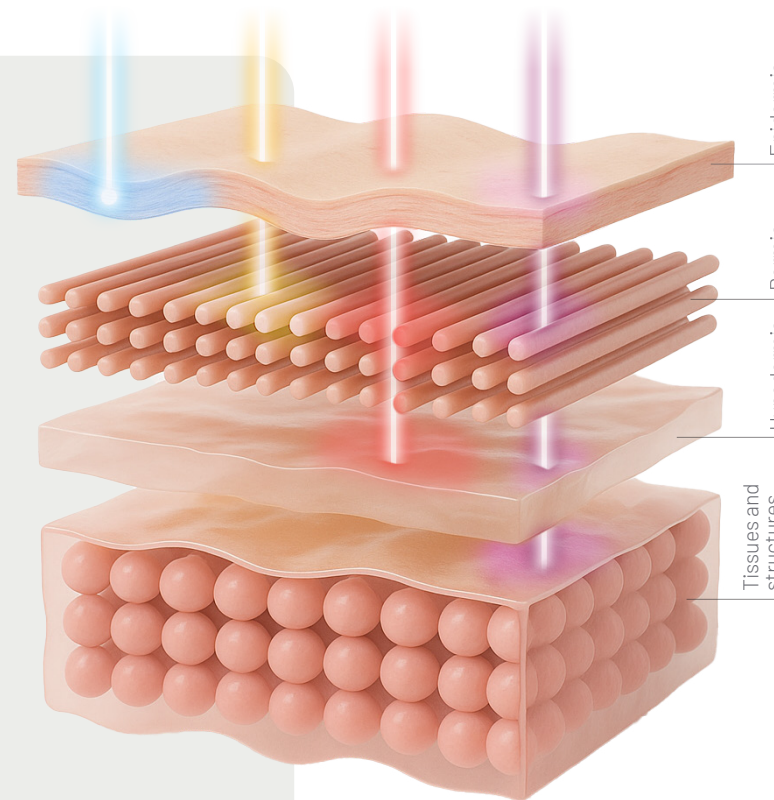

#### RED

Red light promotes a smoother skin tone and gives the complexion a fresh, rosy glow.

#### NIR

Near-infrared light leaves the skin looking smooth and helps visibly reduce fine lines. When combined with red light, it supports the skin's absorption of active ingredients.
