

Air Freight Terms and Conditions

Pricing Principles

All quoted freight rates, charges, and transport options are based on the respective availability of cargo space, the choice of airline, trucks used, and other involved logistics partners.

Currency

All prices and cost indications are in euros, unless expressly stated otherwise.

Measurement and Weight Calculation

Dimensions and weights are generally calculated at a ratio of 1:6 (1 cubic meter = 167 kg), unless otherwise specified. The higher weight (actual or volumetric) will be used for billing.

Freight Dimensions

The offered freight services are based on a maximum package height of 160 cm. Deviations from this height are only available upon request and subject to the loading capabilities of the respective airline.

Rate Validity

All freight rates are valid until the specified date, which refers to the planned departure date ("estimated time of departure" – ETD).

Surcharges

Surcharges, such as for fuel or security measures, are charged based on actual expense or final confirmation, following the principle "valid at time of shipment" (v.a.t.o.s.).

Cargo

The stated rates apply exclusively to safe and general commercial goods. Hazardous materials, batteries, oversized shipments, and valuable cargo are only offered upon special request.

Stackability of Goods

The pricing is based solely on stackable goods. Non-stackable cargo requires a separate agreement.

Transport Insurance

Transport insurance is only offered upon written request and will be charged separately.

Selection of Logistics Partners

The selection of all logistics service providers is carried out exclusively by Mega-Log GmbH, unless expressly agreed otherwise in writing.

Additional Charges

Special rates and additional charges, particularly for storage, customs inspection, handling, waiting times, and similar services, are billed based on actual expense.

**Customs Duties**

Customs duties, import VAT, and any other applicable charges are not included in the price and will be invoiced as incurred.

Applicable Terms and Conditions

Our services are provided exclusively on the basis of the most recent version of the *Allgemeine Deutsche Spediteurbedingungen* (ADSp) – German Freight Forwarders' Standard Terms and Conditions.
