

The Saltzmans Missionaries to Japan

OCTOBER update

We are praising the Lord for another update we get to give from Japan. This month has been packed full. We are starting to settle into our schedule, with times of Japanese classes, self study, and accomplishing projects for the church. As it is getting colder here in Teshio, we are still working hard at building relationships with people in the community. Aly has been faithful in visiting the library and a local food center. I have been doing my best to talk with different people at the local sports center. We both also have had opportunities to speak with our neighbors as well. Being in this smaller town, the people that we see almost everyday have quickly started to recognize us, and have been excited to see us start to improve in our Japanese, which has been an encouragement. This last week, we also got to celebrate our 3 year wedding anniversary. We had an errand to run in the city, so we took a couple day trip to enjoy our anniversary. Thank you for your prayers! We ask that you pray for the winter preparations for us, the Mansells, and the church. We also ask that you would pray for us as we start the process of getting our Japanese licenses. There is a lot of paperwork, study and practice to be taken along with the process being very long in general, so we will need the grace and provision of God each step of the way. We appreciate all of your support and prayers, and we look forward to share more about our work here as we head into the cold winter months.
