

Podica Terms & Privacy Policy

Last updated: July 2, 2026

1. Overview

Podica is a creative app that helps users generate short, cinematic video projects from topics, trends, ideas, or prompts they choose.

A generated Podica project may include a script, narration, images, video clips, captions, a cover image, background music, research/source information, and editable timeline elements. By using Podica, you agree to the policies described in this document.

2. Privacy Policy

Data We May Collect

We may collect limited information needed to operate, protect, and improve Podica, including:

- Account information, if you sign in.
- Topics, prompts, titles, generation settings, and project information you submit.
- Generation status, quality, clip count, output type, credits, and subscription status.
- App usage analytics, crash reports, device information, and performance data.
- Support requests and information you choose to provide when contacting us.

How We Use Data

- To generate, deliver, recover, and save video projects.
- To manage credits, subscriptions, purchases, and account access.
- To improve reliability, performance, user experience, and safety.
- To detect abuse, prevent fraud, and enforce these policies.
- To provide customer support and troubleshoot issues.

AI Generation and Processing

Podica uses remote servers and AI providers to create scripts, visuals, narration, captions, video clips, research metadata, and related project assets. This means prompts, topics, generation settings, and necessary media may be processed by backend services and AI providers.

Do not submit private, confidential, sensitive, or personal information that you do not want processed by AI systems.

What We Do Not Do

- We do not sell your personal data.
- We do not intentionally track you outside Podica for advertising purposes.
- We do not access unrelated files, photos, contacts, messages, or device data unless you choose to provide access through device permissions.

Data Storage and Retention

Generated assets may be temporarily stored on remote servers so Podica can process and deliver the finished project to your device. Finished projects may be saved locally in the app library/archive when available. Some remote generation files may be removed after delivery, cleanup, or a limited retention period.

You are responsible for exporting, saving, or backing up any content you want to keep.

Data Protection

We use reasonable technical and organizational security practices to protect user information. However, no online service can guarantee complete security.

3. Content Policy

Podica is designed for creative, educational, cinematic, entertainment, and short-form content creation. Users agree not to use Podica to create, request, upload, export, share, or distribute content that includes:

- Illegal material or instructions for illegal activity.
- Hate speech, harassment, bullying, threats, or targeted abuse.
- Extreme violence, exploitation, or abuse.
- Sexual exploitation or content involving minors.
- Explicit sexual content.
- Harmful misinformation intended to deceive, manipulate, or cause harm.
- Non-consensual deepfakes, misleading impersonation, or deceptive identity claims.
- Content that violates privacy, publicity, copyright, trademark, or other rights.
- Malware, scams, fraud, or deceptive commercial activity.

We may restrict, fail, remove, block, or suspend content or accounts that violate these rules or create risk for Podica, users, third parties, or the service.

4. AI Output Disclaimer

Podica uses AI systems to generate scripts, images, narration, captions, video assets, and related content. AI-generated output may be inaccurate, incomplete, offensive, unexpected, or similar to content generated for other users.

You are responsible for reviewing generated content, sources, captions, visuals, and exports before publishing, sharing, or using them commercially. Podica does not guarantee that generated content is factual, unique, non-infringing, or suitable for every use case.

5. Credits, Subscriptions, and Payments

Podica may offer credits, subscriptions, or paid features. If you purchase credits or subscribe to premium features:

- Payments are processed through the app store or payment provider.
- Subscriptions may renew automatically unless canceled.
- You can manage or cancel subscriptions through your app store account settings.
- Refunds follow the policies of the platform or payment provider where you purchased.
- Credit costs may vary depending on output type, quality, clip count, and available features.
- Credits may be consumed when a generation job is successfully started or completed, depending on the generation flow.

We may change pricing, credit costs, subscription benefits, or premium features over time.

6. Intellectual Property

The Podica app, name, branding, interface, design, software, and related materials are owned by Podica or its licensors.

Subject to your compliance with these policies, you may use and share content you generate with Podica for lawful personal, social media, or permitted commercial use. You are responsible for ensuring that your prompts, generated content, uploads, edits, exports, and publications do not violate the rights of others.

Podica does not guarantee exclusive ownership of AI-generated content, and similar or identical outputs may be generated for other users.

7. User Responsibility

You are responsible for:

- The topics, prompts, images, files, and instructions you submit.
- The generated content you edit, export, publish, or share.
- Checking AI-generated content, sources, captions, visuals, and claims before use.
- Following local laws, app store rules, and social platform rules.

- Respecting copyright, privacy, publicity, and other third-party rights.
- Keeping backups of content you want to preserve.

8. Service Availability

We aim to keep Podica reliable and available, but we cannot guarantee continuous uptime, error-free operation, successful generation for every prompt, permanent availability of specific features, or permanent storage of generated files.

Features, pricing, credits, models, voices, styles, generation options, and export capabilities may change, improve, or be removed over time.

9. Third-Party Services

Podica may rely on third-party services for hosting, storage, analytics, authentication, payments, AI generation, notifications, and media processing. Use of Podica may involve processing by these third-party services as necessary to provide the app.

Third-party app stores, payment providers, and AI services may have their own terms and policies.

10. Safety and Abuse Prevention

We may review generation requests, metadata, system activity, or reported content to detect abuse, prevent fraud, protect service stability, and enforce these policies. We may limit, block, or suspend access if we believe a user is misusing Podica or creating risk for other users, third parties, or the service.

11. Updates to These Policies

We may update these policies from time to time. If we make changes, the updated version will be posted in the app or on the website. Continued use of Podica after updates means you accept the revised policies.

12. Contact

If you have questions about these policies, contact us through the official support channels listed in the app or on the website.
