

RAPTOR®

Scope Lens

Specially designed for the Raptor Scope, this lens series offers full flexibility due to its small size, low weight, high contrast and sharp images.

However, these lenses can also be used as stand-alone lenses, considering that they have a non-variable T-Stop of 5.6 nor focus ring.

They cover Full Frame sensors creating beautiful blurs while maintaining the detailed image of the main characters.

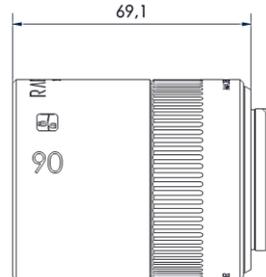

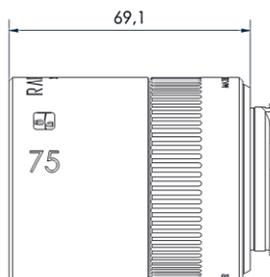

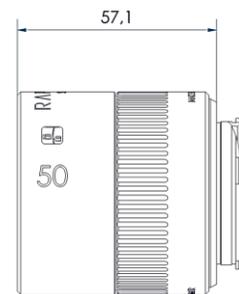

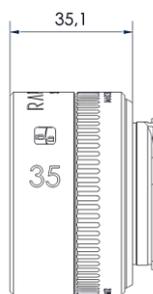

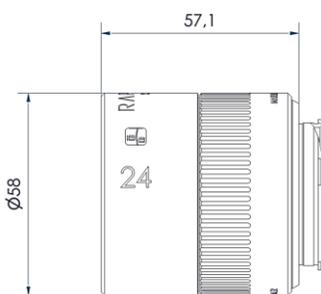

Images for reference only

Made in Germany with top-level materials and engineering, this lens set is the perfect tool for highly mobile shots.

TECHNICAL DATA**

| FOCAL LENGTH | IMAGE DIAMETER | ANGLE OF VIEW | CLOSE FOCUS | APERTURE | FRONT FILTER TREAD | CAMERA MOUNT | WEIGHT |
|--------------|----------------|---------------|---------------|---------------|--------------------|--------------|-----------------|
| 24mm | 44mm / 1,73" | 84° | 0,25m / 9,8" | T/5.6 (fixed) | 54mm | Leica M | 300 g / 0,67 lb |
| 35mm | | 63,5° | 0,45m / 17,7" | | | | 220 g / 0,49 lb |
| 50mm | | 47° | 0,7m / 27,6" | | | | 250 g / 0,55 lb |
| 75mm | | 32° | 0,7m / 27,6" | | | | 270 g / 0,6 lb |
| 90mm | | 27° | 0,7m / 27,6" | | | | 280 g / 0,62 lb |
