Regulation (EC) No. 1907/2006 REACH

Dear Sir and Madam,

Schoch Edelstahl GmbH, as a manufacturer and dealer of parts (flanges, fittings, valves, turned and milled parts made of stainless steel) is an **importer and downstream user within the meaning of REACH No. 1907/2006**. Our products are considered to be articles and not substances, and do not require registration. REACH regulates the handling of chemicals in products. REACH stands for **"Registration, Evaluation, Authorization and Restriction of Chemicals"** (registration, evaluation, authorization and restriction of chemical substances).

In our own interest and to ensure a high level of product safety, we follow the implementation of **REACH** and the resulting requirements. In particular, we have contacted our upstream suppliers, from whom we purchase materials, chemical substances and preparations that we use in our production process. The feedback received so far confirms that the products supplied do not contain any substances requiring registration.

Substances of very high concern (SVHC) according to Art. 33 of the REACH regulation SVHC list from June 25th, 2025 with 250 substances

To the best of our knowledge, our products do not contain any of the **"Substances of Very High Concern" (SVHC)** on the candidate list of the European Chemicals Agency ECHA. ECHA candidate list: <http://echa.europa.eu/de/candidate-list-table>.

We comply with the obligation according to **Article 33** of the REACH regulation and will inform our customers immediately if, according to the latest state of knowledge, the **SVHC list dated June 25th, 2025** with 250 substances above the limit value of **0.1%** are contained in our products.

Should you need any further information, do not hesitate to contact us.

Yours sincerely

Lars Schoch
Managing Partner
SCHOCH EDELSTAHL GmbH
