

Make Room at the Top.” – Eden Biniashvili Announces the Rise of a Global Power Standing Next to Musk, Bezos, and Zuckerberg

Delaware / Worldwide – With the launch of Bishvili Innovation Group Inc., a new era of global dominance begins.

“Built to own it all.” Three words that today mark the beginning of a global era.

Eden Biniashvili, entrepreneur, investor, and Forbes 30 Under 30 alumni, officially announces the launch of Bishvili Innovation Group Inc., a Delaware-based holding whose true scope and ambition have so far remained in the shadows.

“I don’t build the future. I *am* the future – and it starts now, writing history,” says Biniashvili. By 2030, we will build an empire of companies and billions. Some will join us willingly. The others... will learn why they should have.

What exactly the Bishvili Innovation Group Inc. is planning remains undisclosed. One thing is certain: when it steps into the light, entire markets will never be the same.

“They know the name. But not what’s coming next. The world will meet a power surpassed only by one – and that is God. Musk. Bezos. Zuckerberg. Make room at the top – I’m on my way.”

The coming months will reveal how an invisible force becomes the most visible power on Earth.
