

"Soupfest" 🍲 in the heart of the city ↓

12.10.24 in Crailsheim on Schweinemarktplatz another Suppenfest, started in 2016, was held.

31 soups were tasted at the VI International Soup Festival 🍲 🍲. Residents and guests of the city met the chefs with "waiting plates", warm hearts and loud applause 🙌.

Schweinemarktplatz was filled with people long before the start.

This year, more than 30 types of soups were presented. Ukraine was represented by 4 teams, among which was our ❤️ ❤️ Center for Ukrainian Culture and Aid "The Power of Unity" in Crailsheim, with Ukrainian borscht with pampushki, which won the hearts and "stomachs" of the festival guests, as evidenced by the reviews in the "Guest Book" of our center.

A friendly and cheerful atmosphere reigned on the square. Thousands of visitors lined up in advance in a long line and patiently waited for the start.

The soups were evaluated by a leading jury of professional chefs 👩🍳 👩🍳 👩🍳 👩🍳.

It was very interesting and unbearable for visitors to stand and watch in suspense what awaits them in the pots? 🍲

And there was just what was there: 31 soups were submitted for tasting, including exotic versions such as pepper soup 🍲 with chicken, pumpkin chili with brown lentils, Ukrainian ukha 🍲, as well as classic dishes such as borscht 🍲. Everyone received a warm plate and found their favorite. The recipes presented were also sold out.

The jury had to evaluate the soups not only by taste, but also by appearance and presentation 🍲 🍲.

It was a great opportunity to unite locals, and people with different migration backgrounds, people seeking shelter from the war. 🌍

A wonderful opportunity to introduce a part of the cultural heritage of our country.

It is very nice that one of the Ukrainian teams is also among the winners. 🏆

We sincerely congratulate our compatriots and are proud that we worked together brilliantly during this event.

Also, a big thank you to all the participants and organizers of this event DE UA.
